

DSAT Laptop Donation Scheme

It has become very clear during this overwhelming lockdown that we have a huge digital divide in our country. We have a generation of children who are completely unprepared and unskilled for their ever-changing future!

The most basic requirement is a laptop.

If you have old laptops or iPad at home that you do not use anymore then please donate them to our donation scheme. You will be helping to empower a child and you will be supporting them so that they can access their future. Digital tools are unlocking the door to their digitally connected world. Please help! Donate today.

Our Technology support team will clean, regenerate and upgrade these laptops into purposeful learning equipment.

Bring your old laptops and i-pads to the school office if your child attends this school or if you are a business who would like to make a donation then please contact:

Jo Stone on 07814199939 and we will arrange a collection date and time.

Thank you for your support.
