

## Catch Up Premium Funding Strategy Statement 2020

### EEF Statement

Considering a tiered planning model for the academic year ahead can help schools balance approaches to improving teaching, targeted academic support and wider strategies. It is recommended in the EEF's Guide to the Pupil Premium as a way to help schools focus on a small number of strategies that are likely to make the biggest difference. The tiered approach is a helpful heuristic that can supplement school leader decisions regarding the allocation of funding, energy, training and time.
